Subject: Taxi procedures at the West Apron, the routes to follow and the explanation of maneuver directions

1. There are 21 aircraft parking spots on the West Apron.
2. All aircraft must enter the apron by following the "YELLOW" colored straight line drawn as the "apron centerline" located in the middle of the West Apron.
3. The parking spot is determined by the tower and is communicated to the pilot via the air band.
4. Unless specified by the tower and/or not approved by the tower, it is forbidden to taxi outside the lines within the West Apron.
5. Parking spots number 1-2-3-4 can be used by aircraft with a wingspan of up to 13 meters.
6. Parking spots number 6-7-8-9-10-11 can be used by aircraft with a wingspan of up to 11 meters.
7. Parking spots number 5K and 5L can be used by aircraft with a wingspan of up to 20 meters.
8. Aircraft in parking positions 5A, 5B, 5C, 5D, 5E, and 5F should perform a 180-degree turn in place to return to the taxiway.
